

HPE COVID, Cold & Flu Care Clinics

Note: Clinics are open to all ages

Is the COVID, Cold & Flu Care Clinic the right place for you?

- You are experiencing symptoms of COVID-19, strep, bronchitis, pneumonia, ear infection, cold or flu, sinus infection, vomiting or diarrhea.
- You have been unable to book an appointment with your primary care provider, or a health care professional has referred you to this clinic.
- You are unable to safely monitor your symptoms at home.
- You are at higher risk of severe illness, such as immunocompromised individuals regardless of vaccine status.

What to bring with you

- You should bring a list of your medication and a list of any important medical conditions to your appointment for a clinical assessment.
- Health card if you have one.

Appointments must be pre-booked.

613-478-1906 Extension 294

This is not a vaccination clinic. Clinic locations and hours are subject to change based on staffing.

If you have one or more of the following symptoms, you should immediately call 911 or go to an Emergency Department:

- Severe difficulty breathing (struggling for each breath, can only speak in single words)
- Severe chest pain (constant tightness or crushing sensation)
- Feeling confused or unsure of where you are
- Losing consciousness
- Children with recorded fever greater than 38 Celsius AND who are under 2 months of age
- Children with any difficulty breathing, using chest muscles to breathe, severe lethargy (not waking up to drink), neck stiffness
